

# ENERGY WORKS KC

PRESERVING RESOURCES. PROVIDING RESULTS.

**EnergyWorks KC** is a resource for energy-efficiency information for those who may not qualify for the Low-Income Weatherization Assistance Program. EnergyWorks KC helps Kansas City residents like you learn what you can do to minimize your home's or business' energy usage and reduce waste. It will also help you access information and funding sources to make those improvements.

## What you can look forward to:

- **One easy place to find information** for all resources related to energy retrofits and weatherization, for both commercial and residential building owners.
- **Access to information** on paying for weatherization improvements through utility rebates, tax credits or financing through local lenders.
- **Free energy audits** for low-income participants.
- **Rebates** to lower the costs of making energy-efficiency improvements to homes or businesses.
- **Money** for high-efficiency shower heads, toilets, low-flow faucet aerators, rain barrels and downspout disconnections to divert water to lawns and gardens.
- **Training for careers** in retrofitting homes and businesses.

**More information will be available this fall!**

**Watch [www.marc.org/energy](http://www.marc.org/energy) for details.**

*EnergyWorks KC is a partnership between the city of Kansas City, Mo.; KCP&L; the Metropolitan Energy Center; the Mid-America Regional Council; and Missouri Gas Energy.*
