Agreement and Signature

Residential Environmental Water Diversion and Concrete installation Project Description and Release

The Ivanhoe Neighborhood Council (Ivanhoe), with funding provided by the Full Employment Council, Inc. (FEC), Green Impact Zone Initiative of Missouri and other entities or persons, is participating in a residential environmental water-diversion and concrete project (project).

I, as a resident homeowner (resident), desire and agree to have work in connection with this Project performed at my residence. I understand that this work will generally be performed by youth between the ages of 16-24 years of age, who will be trainee status individuals. The general scope of this work will be to divert storm water away from basement foundations to nearby rain-garden areas. This work may include, but without limitations: installation of concrete work around the foundation of my home, installation of sidewalks around my home, and creation of a rain-garden. I understand that this work will not involve access to the inside of my residence, without my permission.

I understand that there will be no charge to me for this work.

On behalf of myself as well as my heirs, executors, administrators, and assigns, I hereby forever release and discharge Ivanhoe, FEC, Green Impact Zone Initiative of Missouri and entities or persons providing funding for this Project, along with their respective officers, directors, agents, employees, contractors, affiliates, successors and assigns, from and against any and all claims, demands, actions, causes of action, obligations, liabilities, for death, personal injury or loss of property, whether anticipated or unanticipated, directly or indirectly arising out of or connected in any way with my participation in the Project.

I hereby grant Ivanhoe, FEC, and Green Impact Zone Initiative of Missouri full and complete permission to use photographs of me or the Project at my residence and quotations from me in promotion of the Project.
